Richard Villasana, Founder

9450 Mira Mesa Blvd., Ste. C520

San Diego, California 92126

Dear Mr. Villasana,

I want to thank you and your organization for your assistance with locating family members for children in care whom I was providing services.

Here at Family Finding at Turning Points for Children, we do not have the access to be able to search for family members outside of the U.S. In this case, your services were needed as the family is from Brazil.

The father in this case was taking care of 16, 15, and 7-year-old sons and a 6-year-old daughter on his own while working full time in construction to provide for his family. The Community Umbrella Agency offering services to him did not know of any family members who could help, and he was struggling. Utilizing the results and information from your inquiries, we were able to locate a paternal aunt and her family, who immediately offered to help the father in any way. We were also able to locate the paternal grandmother of the children who stated she was able and willing to visit with the children weekly after work and babysit.

Without the information your agency obtained, we would not have been able to locate these supports for the family. Father and the children are currently connected with these family supports, and they are actively helping to take care of the children.

Once again, I would like to thank you for your diligence with this case. We at Family Finding will continue to reach out to Forever Homes for Foster Kids and recommend other organizations to do so as well.

Sincerely,

Danielle White
