Dear Mr. Villasana,

I would like to express my sincerest appreciation to you and your organization for the supportive efforts in locating the birth family for the two sisters born in Tijuana, Mexico, who after their adoption, and now young adults, lost all connections to their birth family and identity.

The commitment, guidance and relentless efforts demonstrated by you and your organization in securing the sister's original birth certificates, finding birthparent and extended family in Mexico is much appreciated. Even though efforts to locate birth certificates or birth family did not yield a positive outcome, due in part to system barriers, your perseverance in conducting Level 1 and Level 2 Family Finding demonstrated your determination and unrelenting efforts for these two sisters.

I am grateful and honored to count on your organization's support with future cases requiring family finding support in Mexico and/or Latin American. My sincerest appreciation to you, your board and funders on focusing on members of this vulnerable population in need of building family connections across borders.

With sincerest gratitude,
